

Multifunctional
self-driven lifting device

SL 580 Maxi

Indoor lift for heavy
windows and panes

Lifts and handles elements up to 1279 lb

The SL 580 Maxi is an agile and stable lifting device – excellent for easy lifting and moving of the heaviest window panes and sheets of glass.

- Two vacuum circuits with two pumps
- Handy og compact
- Multifunctional
- Self-propelled
- Precise movements
- Labour-saving
- Improves work environment
- Tried-and-tested Danish quality

The lifting capacity and precise movements of the Smartlift make the machine ideal for installation of e.g. heavy fire doors.

The SL 580 Maxi is increasingly used in industry for heavy lifting jobs.

Windows are kept securely in place throughout the installation process.

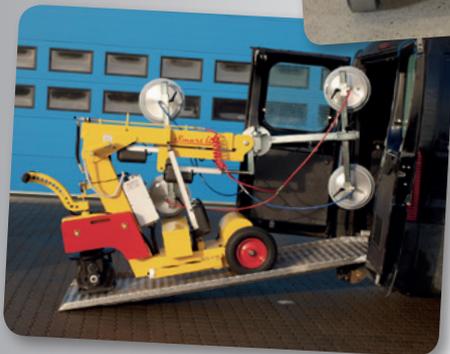

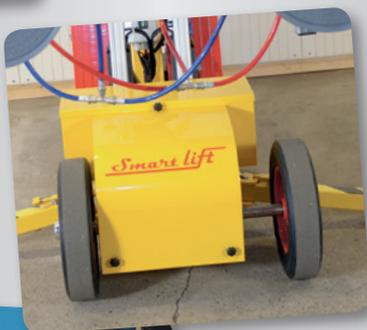

Smart lift

The lifting device has a multifunctional swivel head.

The SL 580 Maxi can be shifted sideways up to 3.9 in for precision adjustment during the window installation process.

The Smartlift is easily transported in a van or on a trailer

Technical data

Description	Value
Weight	1536 lb
Height	55.9 in
Width (min)	30.7 in
Length (min)	79.6 in
Extension of arm	19.7 in
Tip from horizontal	25° back/105° forward
Sideshift	3.9 in
Vacuum system	2 circuits
Charging voltage	115 volt
Integrated charger	Blue Power 24/12
Charging time	Approx 8 hours
Battery (2 x 12v) 24 volt	2 x 90 Ah
Running period	Approx 30 hours
Rear-wheel drive	1.341 hp
Suction pads	4 unit Ø 15.8 in
